base pay data, long term incentive pay data, annual incentive pay data, and benefit plan provision data, automatically mapping the raw competitive rewards data for incorporation into the competitive rewards database by mapping the raw competitive rewards data to benchmarks comprising job function, discipline, or scope; and generating a presentation of results for the competitive rewards analysis as recited in independent claim 23.

Prior art of record fails to teach a combination of elements including collecting the raw competitive rewards data through one or more data feeds for incorporation in a database, the raw competitive rewards data comprising at least one of base pay data, long term incentive pay data, annual incentive pay data, and benefit plan provision data, storing the mapped competitive rewards data in a plurality of records of the database, and comparing the competitive reward data to one of the benchmarks and generating a report presenting results of the analysis as recited independent claim 37.

These features, together with the other limitations of the independent claims are novel and non-obvious over the prior art of record. The dependent claims 19-22, 24, 26-35, and 39-45 being definite, enabled by the specification, and further limiting to the independent claim, are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
